

LenoDiar[®] Adult

RELIEVES DIARRHOEA
AND RESTORES INTESTINAL BALANCE

100%
natural

gluten
free

With **Actitan-P**
molecular complex
of tannins and polyphenols

Capsules

MEDICAL DEVICE Class IIa

LenoDiar Adult is an innovative medical device for the treatment of **acute diarrhoea and relapses of chronic diarrhoea**. The product reduces attacks of diarrhoea while respecting intestinal function. Diarrhoea is a phenomenon associated with irritation and inflammation of the intestinal mucosa due to various causes. It is characterised by an increased secretion and/or reduced absorption of liquids, accompanied by increased intestinal motility. In addition to discomfort and pain, diarrhoea also presents the risk of dehydration, the loss of vitamins and minerals and an imbalance in the intestinal bacterial flora.

HOW IT WORKS

LenoDiar Adult works thanks to **Actitan-P**, a natural molecular complex resulting from Aboca research which reduces attacks of diarrhoea and normalises the consistency of stools, helping to rapidly restore a balanced intestinal function.

Actitan-P reduces the inflammation of the intestinal mucosa, which always occurs in cases of diarrhoea, through two mechanisms of action:

1. **a protective action**, achieved by forming a barrier-like film which limits contact with microorganisms and irritants;
2. **a radical scavenging action** on free radicals, which counteracts mucosal irritation.

Thanks to the synergy of its actions, **LenoDiar Adult** helps to rapidly restore intestinal function and the equilibrium of the bacterial flora (the microbiota). The product's innovative mechanism of action means that it works while respecting the physiology of the intestine and without causing constipation.

LenoDiar Adult is a 100% natural, gluten-free product.

INDICATIONS

LenoDiar Adult is indicated for the treatment of **acute diarrhoea of various origins** (viral infection, flu syndromes characterised by diarrhoea, iatrogenic diarrhoea caused by medicines, conditions of stress, poor lifestyle and diet, traveller's diarrhoea, hormonal changes such as during the menstrual cycle) and for **treating relapses of chronic diarrhoea** (such as IBS - irritable bowel syndrome, functional diarrhoea, intestinal inflammatory disease, etc.) alongside specific therapeutic treatment. **The product is indicated for adults and children aged 12 years and over.**

COMPOSITION

Functional substances: Actitan-P, natural molecular complex of tannins (from Agrimony, Tormentil) **and polyphenols** (from Olive and Turmeric).

Titrated in total tannins $\geq 7.8\%$.

Other ingredients: microcrystalline cellulose.

Plant-based polysaccharide capsules.

INSTRUCTIONS FOR USE

It is recommended to take 2 capsules 2-3 times a day, depending on the severity of the disorder. If symptoms persist for more than 7 days, seek medical advice.

WARNINGS

Do not use in case of individual hypersensitivity or allergy to one or more components. If symptoms do not improve, consult a doctor. Store at room temperature, away from heat sources and light. Keep out of reach of children. The expiry date refers to the intact product, stored correctly.

PACK FOR SALE

20 capsules of 500 mg each

EXPIRY DATE

See the expiry date stated on the pack. Do not use after the expiry date indicated.

Last revision date: 12/2016
